

SIGI 3 “Mid Term” ASSIGNMENT

APPLIED PSYCHOLOGY 160 (100 POINTS)

Note: This assignment Subject to Modification based on Software Program Adjustments

This class assignment requires that you use SIGI-3, a computerized career-planning program that you paid for as part of your Assessment Package. Log-In Instructions, including passwords for this program are/were introduced during the 3rd week of the semester as part of the initial visit to the Career Center. **If you missed that class or have not yet paid for your assessment pack , YOU MUST DO SO IMMEDIATELY**

Once you have paid/attained log-in and passwords, you may do the computer portion of this assignment from either:
(1). The computers IN the Career Center (SSC) or (2) From other compatible computers at the following website:
<http://gateway.saddleback.edu/sigi/sigistart.html>

PLAN AHEAD! This is NOT a ‘last minute’ assignment! Ask for HELP if You Need it!

Throughout your time on SIGI, **Print** useful pages for yourself as you proceed through the program!

The Following SIGI 3 *printouts must be submitted as part of your assignment

(1) **VALUES:** A **one page printout indicating your VALUES** from the three sources (Card Game, Quik Pick, etc.)

(2) **CAREER LISTS - TWO DIFFERENT LISTS*** of occupations that result from YOU searching SIGI for matches with ‘some’ of your important VALUES. **Each of the TWO lists should have approximately 15 somewhat different occupations!** You must “shuffle” your values between your career list searches in order to identify the *two* lists that are a little different from each other. (You ‘may’ include some ‘activities, interest areas, or ‘avoids’ when you search by features. Select what is important to you.) Make sure you ‘test’ your important values in your search. Your values will be assessed via additional exercises later this term, but give your values a good hard look via SIGI. Find careers for your list that ‘match’ some of your important values. **Be SURE to “BOOKMARK” those careers on the ‘lists’ that peak your curiosity.**

(3) **CAREER DEFINITIONS-** you are required to choose FIVE occupations (BOOKMARK them) that you are interested in at this time: From the Bookmark: **PRINT AND SUBMIT the 5 definitions (only) of the occupations (Each definition is only about a paragraph long).** Do NOT submit the entire list of information for each career, JUST the definition! **Be “Green” in the pages you submit!**

(4) **SKILLS EVALUATION:** For each of the above 5 careers, you are required to **complete, print, and submit the Summary of YOUR Skills Evaluaton for those same 5 occupations (above)** You must do so while clicking on the particular BOOKMARK career, then do the skills section. The SIGI skills evaluation by career, WILL help you reach a conclusion about how well your skills match that particular occupation! Submit the page that shows the skills list, ‘yes/no’ for each skill, and the SIGI’s conclusion of your skills evaluation.

(5) In additions to the printouts, a 2 to 4 page typed summary is required. Discuss your reactions to SIGI: what you learned and how it enhances/contradicts previous assessments. The summary should also contain a discussion of and why you selected the five careers that you did Discuss how you concluded that each of these careers match (or not) your values

“Model Student Paper” Samples from previous semesters ARE available in the Career Center. If you are not sure of the specifics of this assignment, then

GO REVIEW THE “Assignment Samples!
