

If you have Office 2007 and you need to Install Mega Stat Add in for Excel, Do the following

Go into www.mathzone.com

Click on Self Study and More resources—Select Mega stat

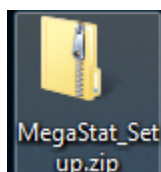

Select the Click Here as shown below. Save the file to your desktop

The file will be in a zipped folder on your desktop

Installing the MegaStat Add-In:

1. [Click Here \(814.0K\)](#) to access a Zip file which contains the MegaStat Excel add-in file (MegaStat.xla) and associated help file.
2. Unzip the file, carefully following all the instructions. We recommend extracting the files to your Desktop.
3. In Excel, on the Tools Menu, click Add-Ins.
4. Click Browse.
5. Go to the folder where you unzipped the MegaStat file. Click on the **MegaStat.xla** file, then click OK.
6. If prompted, click "Yes" to copy the file to the Add-Ins Folder.
7. MegaStat will now appear in the list of available add-ins. If the box next to it is not checked, please check it and click OK.

Double click on the zipped folder

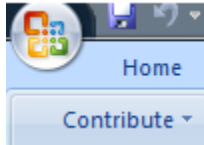

Right click on MegaStat and select Copy

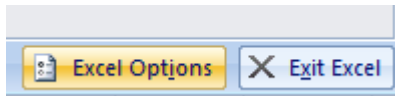

You will need to paste the file in Program files, Microsoft Office ,Office12

After Pasting it in Open up Excel

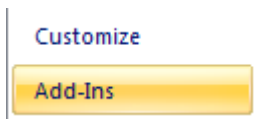

Click on the Excel Ribbon in the upper Left Corner

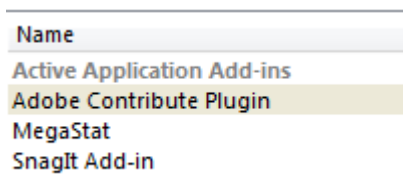

Select Excel Options

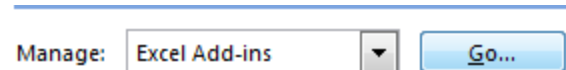

Select Add-ins

The Add-in will display

To Activate it, Click Go

Select MegaStat
