

# CALIFORNIA PRIVATE UNIVERSITIES

Chapman  
Concordia

Loyola Marymount  
Menlo College

Pepperdine  
USC, & Many, Many More!

California's independent colleges and universities first opened their doors in 1851. Each college and university has its own unique strengths and character. Over 125 majors are offered throughout the 75 campuses in existence. Baccalaureate (Bachelor's), Master's and Professional degrees are awarded. Course requirements and filing deadlines for transfer to a private university or college vary with each institution. A student must meet the application and transfer requirements for each individual school they wish to apply. A student should make a counseling appointment at Saddleback College or contact a representative from the school of interest to discuss requirements for transfer.
