

CSU/Edison Transfer Scholarship

Thanks to a generous gift from Edison International, students in the STEM (Science, Technology, Engineering, and Math) fields can apply for this transfer scholarship that provides anywhere between \$2,500 and \$5,000 a semester for two years. While students are in the program they must maintain a 2.0 GPA and full time status each semester. There are five California State Universities that are partnering with Edison International to provide the scholarship.

Partnering Universities include:

- CSU, Channel Islands
- CSU, Dominguez Hills
- CSU, Fullerton
- CSU, Los Angeles
- CSU, San Bernardino

This is a very exciting program, one that can substantially help students with their financial need. Our website is www.fullerton.edu/edison_scholarship . .
