## **Introduction**

In the fall of 2006 a group led by the Vice-President of Student Services and the Vice-Chancellor of Technology and Learning Services convened to discuss the formation of a college-wide student survey. Representative faculty, staff and administrators from around the campus participated in the meeting.

The purpose of the survey was to develop an instrument that would be established and used annually or every two years to collect data from the students on Saddleback College. This survey would serve many purposes; it would be one of many assessment tools in strategic planning, program reviews and for the development of administrative and student learning outcomes. Several survey examples from different colleges around California were reviewed. This survey was designed to better understand the campus climate at Saddleback. From the example surveys question content and preferred question types were discussed. The survey contained a number of questions on student services and support. Additionally, campus environment, marketing, fine arts, athletics and instructional questions were added.

During the pilot year, spring 2007, three forms were developed containing all the questions the committee wanted in the survey. After our initial testing of the questions, the survey was condensed to 2 forms, each one having the same demographic questions. The two differences in the forms were 1) form 1 questions focused mainly on student services and 2) form 2 contained vendor services, athletics, fine arts, marketing and instructional questions.

A random sample of the Spring 2008 schedule of classes was used to establish which classes would fill-out the survey. The following section describes the selection process.

## Background of Methodology for Class Selection of Pilot Survey

The Research and Planning Office chose a 13% random sample from the Spring 2008 schedule of classes. The following exclusions were also applied before the sample was taken.

1. Only on-campus classes were included
2. Sections had to have started before April 7, 2008
3. Section had to have ended after April 11, 2008
4. Excluded cancelled classes
5. Excluded Emeritus classes
6. Excluded Labs, Learning Centers, Directed Study, Primarily Television Instruction, and Work Experience with Educational Value

President McCullough, Vice President Telson and the Faculty Representative sent memos to the faculty to request their participation in administering this survey. If a faculty did not wish to participate their classes were excluded from the data set before the sample was taken.

When the random sample was generated there were 199 sections for non-DE classes and 28 sections for DE classes selected. The total number of students enrolled in those classes (duplicated enrollment) was 5,166 for the non-DE classes and 1,037 for DE classes. The largest class to be surveyed had approximately 84 students enrolled and the average class size was about 26 for non-DE classes and 37 for DE classes. The following charts illustrate the number of sections and their distribution by division for non-DE and DE classes separately.

## **Data Collection and Survey Return Rate**

For the Student Survey project, a student assistant was hired to assist in the distribution and data collection. The student assistant delivered the printed copies of the survey to all the division offices and/or the faculty mail boxes in the month of March. Faculty was asked to turn the surveys back into their division offices by the middle of April. Approximately 5,000 surveys were duplicated and distributed. 2,296 surveys were returned at a rate of approximately 46% of the enrollment at the time the classes were selected.

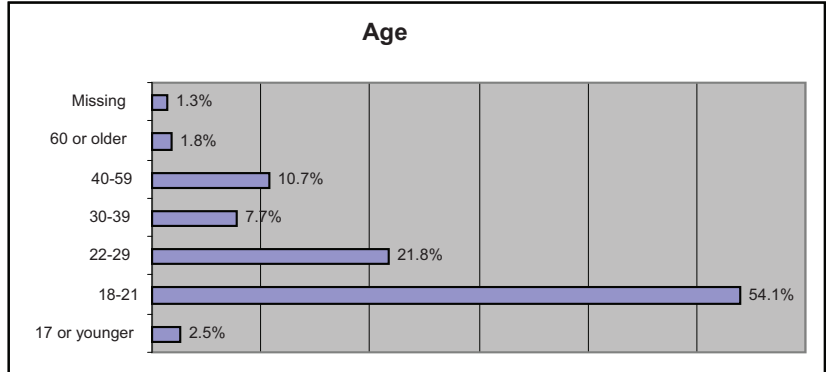

The creation of the survey and the collection of data utilized the survey system called Class Climate and Clarity scanner. The printed surveys were scanned in and the student assistant verified the data. Any comment boxes that were filled in were also inputted into the data system.

## **Overview of Results**

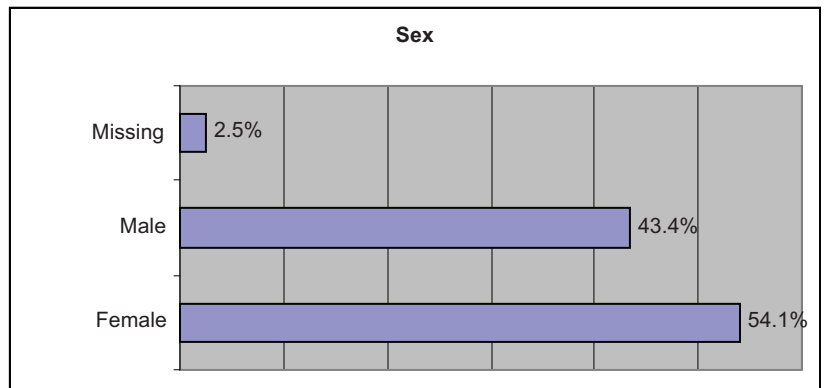

The following pages are the results of the surveys returned. The student characteristics combine the demographic results for Form 1 and 2. For each question there is a table which includes the counts and percentages of the responses and a bar graph which represents the results graphically. Following the student characteristic section are the results for each form (1 and 2) and the questions that each form contained.

  - Attendance shouldn't matter so much. Being in college, it's your choice to go to class or not. Teachers shouldn't be taking roll every single day and it can make people like they are in high school again. (1 Count)
  - Great teachers, at least in my experiences (1 Count)
  - not so confusing. earlier registration dates for all students. (1 Count)
  - Quality of professors. (1 Count)
  - sell cigarettes on campus (1 Count)
  - The lighting on campus is terrible for people that take night classes. It is dark and there is very little presence of the campus security/police. It seems like an unsafe place to be when you are alone at night. Also~ It would be nice if the counselors cared more about the students and took an interest in thier educations. Each time I saw a counselor they suggested I take classes that were supposedly for my major, and I found out later (after wasting time and money) that they were not applicable for my major and not needed for the IGETC. (1 Count)
  - I have not found what could better the campus. (1 Count)
  - its good i like it (1 Count)
  - This is easy! CHANGE THE PE REQUIREMENT FOR GRADUATION!!!! Being that I live in Los Angeles I have to transfer to another junior college just to get my AA... Because of this Saddleback will be losing a lot of the money I would have spent finishing school their, but will now be going to Valley College. I cannot believe there is not an alternative class to take at another school to be able to fulfill an AA degree at Saddleback. Valley College is accepting the Golf Class I took at Saddleback. (1 Count)
  - Less dollars per unit. (1 Count)
  - It's already a great place but i guess more parking. (1 Count)
  - More online courses, and a pharmacy program / medical courses. (1 Count)

- 
- that the teachers who provide online courses maintain consistency...like they give you all your assignments sun to be turned in by sat. rather than signing on and off everyday to check for new assignment (1 Count)
  - healthier food options (1 Count)
  - Offer more Distance Education Courses and a MUCH MUCH EASIER MATH CURRICULEM WITH COLLEGE MATH AVAILABLE ONLINE (1 Count)
  - Better regulation of student driving around campus. I feel unsafe walking across the streets around campus. People drive too fast and don't look out for pedestrians. (1 Count)
  - Easier parking, at times (1 Count)
  - More Saturday and late evening classes for those of us that have to work full time while attending school. (1 Count)
  - Review of lesson plan/content for online classes. (1 Count)
  - excellent instructors (1 Count)
  - If the teachers actually wanted to teach then it would make it more enjoyable. Those teachers that are unhappy with teaching should find a new career and stop teaching because they are making good students like myself lose the inspiration to learn which is really sad. (1 Count)
  - Instead of all the politics and bullshit the Administration is always worried about. I think Saddleback would be a better place if the Administration spent more time providing the best learning environment for the students, like well educated professors (who care about teaching and not about getting paid), cheaper books (not having to buy the new edition every year), and more realistic academic guide lines for the students and professors (making sure the student knows the material not how much needs to be taught). (1 Count)
  - More classes available on-line. (1 Count)
  - One thing I feel could improve on Saddleback's already successful campus a better place would probably be the amount of park available for the morning classes. One of the biggest reasons I prefer afternoon classes is the amount of available parking. Parking in the morning is horrible. The traffic is rediculous. A student must show up at least 45 minutes early for their class if they want to make it just on time, unless of course they get lucky. Also, I think they should have a larger LAP room. I personally love the LAP room but it is always so crowded, extremely loud, and most of the times too hot to concentrate because such high capacity, but don't get me wrong I still love Saddleback! (1 Count)
  - A better library would help to make saddleback a better learning environment. (1 Count)
  - More student life/ activities (1 Count)
  - improving Blackboard! Any other way to upload assignments. Parking. (1 Count)
  - recycling bins (1 Count)
  - To be honest, I have only been taking online classes at Saddleback and I think the classes and the professors are great! (1 Count)
  - More available parking. (1 Count)
  - bigger campus (1 Count)
  - Less confusing parking (1 Count)
  - Seeing as I've mostly only taken online classes, I'm not too sure what Saddleback can improve on...sorry. (1 Count)
  - removing the LA fitness representatives. They are total perverts and creep me out everyday on my way to class, they are unavoidable and over thirty. (1 Count)
  - The traffic of getting onto campus from avery pkwy (1 Count)
  - Actually I'm an IVC student, so I'm not familiar enough with Saddleback to make any suggestions... (1 Count)
  - I don't go onto the campus often, so I don't know what I would change. I like the way it is. (1 Count)
  - Better counselling services. (1 Count)

- 
- Not so much down time with the computer during classes. I believe that since Feb., there have been two or three times that Blackboard was down for maintenance during classes. The classes have deadlines and the times the system was down interfered with deadline to turn in work. (1 Count)
  - Remodeling. (1 Count)
  - More buildings. (1 Count)
  - More parking, Newer class rooms, cheaper book prices. (1 Count)
  - I would like to see students take classes more seriously, and have more dedication in doing their work. It brings the morale of a whole class down when so many students slack off and don't do work. I would also love to walk to class without the smell of cigarettes! I would love to see designated smoking areas on campus, so I can stay away from them! (1 Count)
  - I really don't know first time student! (1 Count)
  - If advisors paid more attention to students. They should seek them rather than students seeking them because many students are unsure how to transfer, achieve a higher GPA, what classes they should take and why, etc. They should take an interest in students' lives. Many students have problems that interfere with academics and don't know why or how to fix them. (1 Count)
  - No smoking (1 Count)
  - The staff in International office are not kind. Internationals pay a lot of money; they should be treated well. (1 Count)
  - I think that it would help if Saddleback offered more language classes. (1 Count)
  - I would make more classes available online, and make all of those online classes have an orientation class, that is optional, because some people may understand the way the teacher runs the internet class, however every teacher is different, and an orientation would make the teacher more personable, and the class more understandable. Put in a parking structure, over by the village and or sm building, it would improve parking, and more money would go into campus because you would need a parking pass to enter the structure, a card to slide in or a scanner. (1 Count)
  - I do not attend the campus enough to want to change anything. As far as the online learning, teachers could give a contact phone number if communicating back and forth is taking too long to get an answer for a question. (1 Count)
  - I think a parking structure would be great so that the parking lots in the buffalo plains can be utilized for grass and trees to help with the climate crisis bring down the overall temp around Saddleback college due to shade and moisture and allow for some of the natural wildlife to return. That would be nice. (1 Count)
  - Less smoking all over campus. (1 Count)
  - Academic counselors who take the time to help you and know what they are talking about. (1 Count)
  - More available choices of online classes. Possible English 100 (1 Count)
  - longer library hours. cheaper cafeteria foods. more parking spaces. (1 Count)
  - k (1 Count)
  - Services for older students i.e. adults with families who have returned to school for further education goals or new education goals. (1 Count)
  - It would be good to be able to have meeting with counselor online or by phone instead of in person since I don't drive right now. (1 Count)
  - I know that IVC and Saddleback college have relationship with each other. I wish I could apply scholarship at Saddleback College and use those facilities like transfer center. (1 Count)
  - it's really old looking and needs a make over (1 Count)
  - A Parking Structure. A wider variety of food that is accessible throughout the campus at an affordable price. 24 hour computer lab/ study center. Better Buy-Back prices at the book store. (1 Count)
  - bigger cafeteria (1 Count)

- 
- If the bathroom near of PE-301 is clean and if there aren't so much chewing gum on the floors and under the desks and the student don't do that and if there is free boiled water then saddleback is better. If there is not that woman that she's maybe Japanese or china in Financial Aid and she's answering students then saddleback will be very better. (1 Count)
  - Hire more people that speak 20 more languages to help the students in any of the services that saddleback college offers. (1 Count)
  - I think that saddleback college need to put an aid who is bilingual in each esl classes to help students to understand better the meaning of what are new words for esl students. (1 Count)
  - I like saddleback because here is close for me (1 Count)
  - It needs to provide more classes for everything. The books are so expensive. (1 Count)
  - has more activities for the foreign students. (1 Count)
  - more computers for internet/e-mail (1 Count)
  - Instead of tickets they should give a warning the first offense, just in case the student doesn't know but after the 1st warning they do know and if anything happens again a ticket should be given. (1 Count)
  - more lively teachers (1 Count)
  - No village. Cheaper cafeteria. Cheaper books. Books should not cost more or equal to tuition. (1 Count)
  - More help for 1st semester students (1 Count)
  - More effective and transparent administration. Bring back FREE PARKING even just a little. (1 Count)
  - The village buildings are too damn far away. (1 Count)
  - The ASG should be a club to help students. A club or institution for every single student. (1 Count)
  - No charge for parking. (1 Count)
  - Make it into a University Make it a place to get you BA, Masters (1 Count)
  - More information about "applying to graduate" and things to help you leave saddleback. (1 Count)
  - There would be socializing where people could meet classmates (1 Count)
  - People being quieter in the library or private rooms for studying. (1 Count)
  - Better counseling services. Meetings were not very informative. (1 Count)
  - Less smoke! (1 Count)
  - Lower vending machine prices (1 Count)
  - Newer Facilities (i.e. chem lab, physics lab) (1 Count)
  - cleaner (1 Count)
  - fun (1 Count)
  - dispersers, campus parking (more), cigarette (1 Count)
  - closer parking, less traffic (1 Count)
  - better counseling (1 Count)
  - Better guidance counseling. (1 Count)
  - Have the snack shop in the village open later than 8:30pm. Hire more Accounting 1B professors. (1 Count)
  - Stop charging students (who already pay tuition) to park in the lots at Saddleback! (1 Count)
  - The teachers, most are not just teaching. They are excited about what they are teaching, and make education worthwhile. They reach out to students and offer students a great chance of success. (1 Count)
  - This is my first semester so I am not very well acquainted with the school yet. Everything has been great so far. (1 Count)

- 
- More interaction with students. (1 Count)
  - Better CIM program. (1 Count)
  - Student enrolled in so many units should not have to purchase a parking permit. Also AmX credit cards should be accepted everywhere on campus. (1 Count)
  - I need to help more. I'm not resident but I need to help more about to get job and take financial aid for spend my books and parking and health insurance and for come and back to Saddleback. (1 Count)
  - I think this College is best in the world. I love it (1 Count)
  - I like this college better another college forme. (1 Count)
  - For me all the class and the teacher are extraordinary. (1 Count)
  - Is very good for everybody. (1 Count)
  - I think is good the person and teacher very good exices (1 Count)
  - thank you very much for help the people to learn ingles (1 Count)
  - Don't pay for parking. (1 Count)
  - More classes in speech (1 Count)
  - I am very satisfied about everything I can have in Saddleback College (1 Count)
  - More flexible student services. More helpful (1 Count)
  - Cleaner rooms. ie.Just new look (1 Count)
  - More morning classes rather than late afternoon (1 Count)
  - shorter classes (1 Count)
  - 1.More classes on the weekend, 2.More classes starting at 6pm. 3.More student activities on campus. (1 Count)
  - A centrally located food court that affords students a place to meet friends, study, study in groups, use free online/ computer labs. (1 Count)
  - The only thing I could suggest is maybe more online courses and more classes offered during the summer (1 Count)
  - More evening classes and free parking (1 Count)
  - having a higher transfer rate, having more distant ed classes available, having more evening classes available. (1 Count)
  - Less traffic before morning classes. (1 Count)
  - Food chains(subway) on campus (1 Count)
  - Make the math department more efficient and easy (1 Count)
  - A colorguard team. closer parking. Disney characters. Saddleback isn't too bad of a place as it is. (1 Count)
  - I don't like all the people that stand around trying to get me to sign all different kinds of petitions, and trying to change my religion. They keep going at you even if you say "No, I'm late for class." (1 Count)
  - less rich kids who don't care about their educations (1 Count)
  - More morning and evening classes. Cleaner/refurbished library (1 Count)
  - Books are too much money (1 Count)
  - less police force (1 Count)
  - Nothing. it's fine (1 Count)
  - Better parking, & more class times (1 Count)
  - Increase more classes so people can have more choice (1 Count)

- 
- Good accesse (1 Count)
  - If it did not exist, along w/ every format of education. Knowledge is limited to what we know and understand, knowledge will always be misleading. (1 Count)
  - More Saturday classes and earlier classes (7am start) (1 Count)
  - Some teachers are a little ridiculous (1 Count)
  - More sports/soccer for men (1 Count)
  - More evening courses. (1 Count)
  - If the people in Financial aid help with getting your Fafsa done on time (1 Count)
  - Probably could never actually happen, but I would like the smokers to go somewhere secluded so I don't have to be around it all the time. (1 Count)
  - Environment, friendly people, nice campus (1 Count)
  - Better teachers with a more personal political opinion. (1 Count)
  - More work/study opportunities. (1 Count)
  - More affordable books. (1 Count)
  - Not sure, haven't attended school here long enough. (1 Count)

  - To start a massage therapy department. I think that it would help those of us who can't go far from home. (1 Count)
  - Better Campus Security so telemarketing can't bother you. (1 Count)
  - We need more help in the special services room. (1 Count)
  - Better parking, better pathways. (1 Count)

  - On campus housing Weekend health service Weekend cafeteria (1 Count)
  - better weekend student service (ie food, acces to student services) (1 Count)
  - Food open on weekend or a coffee stand (1 Count)
  - Having the bookstore and health center open on weekends. If you forget your password, it would be much better if the could email it to you rather than having to come on campus to get it. (1 Count)
  - 1. More staff members in admission and records. Especially, at the beginning of the semester. (1 Count)

- 
- They should provide more computers to use, so students won't be waiting around the computer area. (1 Count)
  - The classes I am enrolled in are fine no changes needed (1 Count)
  - Before enrollment into a certificate program requiring several classes, a system of subject priority in terms of when and how often a class is offered would expedite the student's completion of such; Something like the matriculation process. (1 Count)
  - More counselors available (more hours) (1 Count)
  - Offering courses every semester so that you do not have to wait one year if you were not able to attend a class that was given only once a year. (1 Count)
