Please meet with a counselor to review and incorporate general education courses that best meets your goals.

The Associate of Science (A.S.) Degree in Health Information Technology requires students to complete BOTH HIT department and General Education requirements. **A previous Associate Degree, Bachelor's Degree or higher degree does not automatically meet general education requirements. All outside transcripts must be evaluated toward Saddleback College's requirements. In order to be eligible for the RHIT credential, you must earn the A.S. degree from Saddleback College.** Students have 3 options for completing general education requirements: Saddleback College GE, CSU GE or IGETC. Please meet with a counselor to review what best fits your goals.
