- Liability Insurance
- Background Check
- Professional Behaviors Form

INFORMATION

We currently have clinical sites at St. Jude, St. Joseph, Mission Hospital, Medical Sciences Lab, Saddleback Memorial, Hoag, and East Los Angeles Doctor's Hospital. You may be sent to interview with any of these sites, if you turn down the interview due to your schedule or location preference, then you will go to the back of the line until we can accommodate you.

You will need to attend an orientation before the interview with the instructor to go over what is needed and expected in the interview.

Your clinical site will set your schedule and expect you to treat the rotation like it is your place of work. There's always a possibility that your site will offer you a job so always consider this your job interview.

I understand the comments above and will comply to the rules set forth regarding my clinical rotations.
