I've submitted resumes, but still no response	8	17%

Other feedback, suggestions, or ideas?

- Being somewhat set in my path I found the remarks extremely helpful towards bringing clarity to the overall picture.
- Eric was very helpful. So glad we have this valuable service available to us.
- I did not get any Resume tips
- I'd mark all of these areas a 6 if I had the ability to. This service is invaluable and I feel so fortunate to have Eric's input on my resume. He really helped me to understand where the improvement was needed and I am confident that this will help me in the future. Keep up the great work Eric. Thank you!
- I'm a slightly older college student with relevant work experience, so my resume was already pretty solid. It didn't really need any advice or revision. For someone new to the work force though, I can see the feedback being extremely useful. I did find a new job through the Gaucho job postings (which was where I initially uploaded my resume in order to apply), so that was great! Keep it up :)
- Great class. Eric has a great plan that seems to work for all.
- Thanks. I found it invaluable!
- I understand there are a lot of different suggestions on how to write a resume. I will take on the suggestions provided for my submission on the gaucho website. It did make me a little less confident in using my resume. But I will continue to update it and work hard on catering my resume to the needs of the organizations I am submitting it to. Thank you for the help.
- Services such as the one that Eric Hilden provides are invaluable for students. Having this opportunity and availability on campus really proves how Saddleback College wants their students to succeed. I would have had to pay for this kind of assistance and to know that it is offered to all students is remarkable. I appreciate every resource the school makes available and I only regret that more students don't take advantage of them all. Thank you Eric!!
- His quick response was great. Also his suggestions were helpful and I implemented them.
- Thanks Eric, thanks to your regular emails with new postings of positions in the accounting field, I just landed an accountant staff position with Shenouda & Associates LLP in Huntington Beach. And today it's my first day. Kim Chi Huynh Student at Saddleback College
- Thank you so much Eric for the great feedback.

While I am fairly set in my chosen career profession I found Mr. Hilden's review and critique to lend an overall clarity that I had not been able to achieve previously.

Very great that you guys do this, very helpful.

Thank you!!!

I have found the feedback more practical than what I received from my University. As I apply for job positions, I will see how well it will be received from human resources or other recruiters

I really was not sure how to list the 48 credits I have at another facility. Really appreciate your feedback about the inconsistencies as well. Thank you

After owning my own business for so long. I'm not good at coming up with my own. Imagine that? I appreciate what Eric did and will make the changes. Glad to know that we have this program for our students. They are the future. Thank you for all your help. Amanda

Even though I didn't apply everything suggested, I still had a good enough resume to get me to sit down and meet for multiple interview.
