The edition being sold at Saddleback’s bookstore this semester is a shortened custom version of the 7th edition. It has a frog on the green cover. This custom edition was made using the chapters we need for this class, to save you the cost of the longer book. Only a few chapters were deleted, and you can buy it from the bookstore, or rent it for $63.

If you go to the bookstore, and the text is not on the bookshelves, ask if they have more. If they do not, fill out the Textbook Reservation Form, and they will notify you when the book comes in, almost always within 2 days. Further, you will have priority for that book when it comes in.

You’ll be just fine with the “regular” version, which is what you’ll get if you order it from an online seller. Also, if you order this book from an online source, you will be OK with the 5th or 6th edition, except you will not have the online resources that the rest of the class does, and the review questions that I post from the book may not match what you have.
