DISCUSSION ITEMS

Board's Role in Accreditation
Irvine Valley College President Glenn Roquemore gave a presentation entitled, "What Trustees Need to Know About Accreditation,” to provide an overview of accreditation and review the board’s role in the process. Dr. Roquemore said that accreditation reviews ensure educational quality and provide for continual evaluation and improvement. The board’s role is to establish policies that support those goals while delegating institutional authority to the college presidents. He said it is important for the board to understand the colleges’ goals and benchmarks so they can fully support the colleges.

Educational and Facilities Master Plan Overview
Saddleback College President Tod Burnett, Irvine Valley College President Glenn Roquemore, District Director of Facilities and Planning Brandye D’Lena, and GKK architect David Hunt gave a updated summary of the Educational and Facilities Master Plans for each college projecting needs from five to 20 years. They explained the year-long process which included data collection and comprehensive college and district input from 89 committee meetings, 39 group interviews, and six milestone presentations along the way in order to gain consensus.

Maintenance and Operations Report
Irvine Valley College Facilities Director John Edwards provided an overview of the day to day maintenance and operations activities as well as planning and scheduling for ongoing maintenance needs in response to a board report request from Trustee Meldau. Acting Vice Chancellor of Business Services David Bugay explained the role of the new district-wide Capital Improvement Committee (CIC) that will address long-term facilities and capital improvements needs and make recommendations using uniform, data driven criteria to plan and budget for the next 20 years.
