 A sociological analysis of crime, deviance, social control, and the criminal justice system focusing on the history and patterns of deviant behavior and crime in the United States, structural factors and conditions that lead to deviance, means of social control, and the theoretical explanations of deviance and criminal behavior. Topics include crime, cultural values and norms as well as laws that have contributed to the meaning of deviance and crime, causes and effects of crime on society, social inequality, social location (social class, race, ethnicity, gender, sexual orientation) and the impact on criminal behaviors, the criminal justice system, the prison system, privatization of prisons, sociological theories, and social and reformative justice.

3. Is this course being aligned to a C-ID descriptor? ☐ Yes ☒ No ☐ N/A
 C-ID Code: Click here to enter text.
 If yes, see the Articulation Officer for assistance with C-ID descriptors.

4. Will course be cross-listed? ☐ Yes ☒ No
 If yes, which department is responsible for scheduling, updating, and assessing the course?

Reason for cross-listing: [Click here to enter text.](#)

5. Justification of recommendation for new course: How was the need for this course identified? How will this course meet student needs in ways that currently approved courses (including those from other departments) do not?

Most community colleges offer an Introduction to Criminology course within their Sociology Department. There has been an increase in students majoring in Criminology or in Sociology with an emphasis on Criminology over the past decade. Adding this course to the electives within our department will meet the need of offering this to our students. Many students over the years have asked about the course.

6. Course Requisites:

List all requisites*:

Prerequisite: none

Co-requisite: none

Limitation on enrollment: none

Recommended Prep: none

**Please attach justification for the recommended requisites. Refer to the Chancellor's Guidelines for Title 5 §55003*

REVISED PROGRAM
ACADEMIC YEAR 2023-2024**

**Current
Associate in Arts Degree in Economics for
Transfer Program**

The Associate in Arts in Economics for Transfer degree provides a foundation in economics and the mathematics necessary for upper-division economics for students planning to transfer into a baccalaureate program in economics at a CSU. This background should provide students with the tools to **successfully complete a bachelor's degree**. Students who complete the Associate in Arts in Economics for Transfer receive priority admission to the California State University system, though admission to a specific campus is not guaranteed. While an associate degree may support attempts to gain entry-level employment or promotion, a baccalaureate or higher degree is recommended for those considering professional careers, which can be achieved through transfer.

Program Student Learning Outcomes:

Upon completion of the degree, students will be able to do the following:

- Define scarcity, and show how it relates to the concepts of choice and costs.
- Outline the role of comparative advantage in exchange.
- Describe and analyze the economy in quantitative terms using national income and employment data from the standpoint of current and constant dollars.
- Utilize the demand and supply model to critically analyze real world examples.
- Explain the role of prices in allocating goods, services, and factors of production.

The following is required for all AA-T or AS-T degrees:

1. Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including the following:
 - a. The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth requirements.
 - b. A minimum of 18 semester or 27 quarter units in a major area of emphasis as determined by the community college district.
2. Obtainment of a minimum grade point average of 2.0. Students must earn a "C" or better in all courses required in the major.
