### VoiceThread

April 4th, 2PM - 3PM

Are you looking for ways to add interactive, engaging activities for your students? VoiceThread is a multimedia platform that allows faculty and students to add images, videos and audio recordings to a discussion board prompt.

In this session, you will learn how to create and grade a VoiceThread assignment as well as explore the brand new user-friendly interface. This tool is applicable to both asynchronous and synchronous modalities.

We will also demonstrate how to use VoiceThread for various purposes:

- Create multimedia presentations
- Collaborative projects
- Interactive lessons

### Canvas Assessment / Grades

Tuesday, May 2nd, 2PM - 3PM

As the semester comes to a close, the prospect of grades stands front and center. The goal of this session is to cut down the clutter in the Gradebook and improve your efficiency in grading. By the end of this session, you will learn about:

- Extra Credit in Canvas
- Extra Credit in a Course using Weighted Assignment Groups
- Setting the Default Grade in Canvas
- Streamline grading (rubrics, filter, hide assignment, etc.)
  - Automatically apply a grade for missing submissions
  - Apply filters in the Grade book
  - Hide unpublished assignments in the Gradebook
  - Use the search function in the Gradebook
  - Use the find function in the Gradebook
- Other grading tips
