C. General Education/Cultures in the United States

Ana Maria Cobos, Claire Cesareo-Silva

Four years ago, the Cross Cultural Studies committee began this process by reviewing the cultural diversity graduation requirement and the courses that were fulfilling the requirement. They began looking at cultural diversity requirements at the UCs and the Cal States and determined that the appropriate model to suggest at Saddleback was a requirement focusing on cultures in the United States. The new definition of the requirement has been approved by GE and Curriculum. Many classes have been approved for the new requirement and additional classes are being revised or created to meet it. If approved by the Senate it will go into effect in fall 2010. The list of approved classes will be provided to the Senate before the vote to approve the new definition. Senators were asked to share the proposed requirement and the list with their divisions. It will be brought back for approval at the next meeting.

D. By-Laws Changes: Standing Committee IE/Program Review/EPA

Claire Cesareo-Silva, IE and Program Review Chair, explained that the proposed changes to the by-laws will terminate the Program Review committee and will rename the IE committee to clarify the purpose by referring to it more accurately as Education Planning and Assessment. The EPA committee will focus on SLOs, AUOs and program review and administrative unit reviews, and will link with the curriculum process as has been the case with Institutional Effectiveness. The revised by-laws will be on the agenda at the next meeting for approval. Senators should share this information with their divisions.
