Please be aware that there are restrictions and requirements for some activities. A liability waiver is required from all who attend. You will be notified before the day if there are any requirements for your activities.

Zip line
Get a thrill and learn a skill. Coping with stressful situations is a skill most of us use daily in our work. Harness up and tie into the zip line for a thrilling ride as you zip on a cable stretched across the hills and canyons. Gather your thoughts and fears and send them down the zip line. You must wear shoes, no sandals please. 250 lbs. weight limit.

Archery
The art, practice, or skill of propelling arrows with the use of a bow can be traced back to the Paleolithic period where the bow and arrow was used for hunting and combat. The Samurai called it the yumi and were revered for their Zen like approach to the skill. You will learn all
about the modern sport of archery, how to aim, center yourself and shoot in a safe and supervised range.

**Rifle Range/BB Gun**
The rifle has been a main character in shaping the west, and what better place to try your hand at sharp shooting and target practice than the safe and supervised range. You will get your chance to learn how to aim, center your breathing, relax and shoot. Don’t miss this opportunity to try something new or reconnect with an old joy.

**Hiking**
Enjoy breathtaking views and learn about the native flora, fauna and history of the area, as you are guided through the local canyons and hills. Choose between moderate and easy hikes, and don’t forget your hiking or tennis shoes.

**Yoga**
Instructed by Phong Loung
Yoga is the physical, mental, and spiritual discipline to attain a state of inner peace. During this low-impact session, you will learn to breathe, stretch, and find your center through easy to learn movements that can be beneficial to your health and well-being. Please bring comfy clothes, and a large beach towel or yoga mat.

**Tie-dye**
Relive the days of summer camps gone by! Bring a favorite white t-shirt or other garment and give it a try! Different forms of tie-dye have been practiced in India, Japan, and Africa for centuries, but the art reached unprecedented popularity in 1960’s America. Learn the process of folding, twisting, pleating, or crumpling a garment and binding it with string or rubber bands, then applying dye(s), to create the modern look. Come on, you know you want to!

**Horticulture**
Instructed by Robert Farnsworth
Tired of flavorless grocery store veggies & herbs? Come join the fun and have a hands-on experience as you learn practical tips in planting your own organic container garden. Veggies and herbs aren’t your thing? A portion of the class will also be devoted to planting, pruning and growing succulents – the perfect plants for our spectacular So-Cal climate!

**Balance Work and Home**
Presented by Steve Earley
Balancing work and home life is of paramount concern to many people in the workplace. Competing demands, lack of personal time and our increasingly complex lifestyles stir feelings of guilt and turmoil. Through discussion and other activities, participants will learn strategies for determining priorities and creating balance in their lives.

*Please email Kristen Felli (kfelli0@socccd.edu) if you require a vegetarian option for lunch.*
