

RETURNING CATEMA STUDENTS

If students remember their username and password, simply have the log-in on the CATEMA website and they can enroll into your class.

If a student does not remember their username and password, please have them complete the following steps.

Step 1: Go to www.catema.com/saddleback

Please make sure the sign-in page says “Saddleback College”. If they input catema.com without the “/saddleback”, they will end up on the CATEMA homepage. They will then need to select Saddleback College from a list of schools to ensure they are on the correct login page.

Step 2: Click “Go to Student Login Assistant” right below the login section in Green

Step 3: Complete the form. Students will need to select their school, Enter their first and last name and enter their date of birth. Then **Click, “Find Username”**

Step 4: Click “Create a new enrollment record”. Students are now logged in and they can enroll in your class.
