What is a REGISTRATION “APPOINTMENT”?

Appointments are assigned to Continuing students automatically. The Appointment is a start date, and time, when each student gains access to the registration system to enroll in classes.

College-wide, Registration Appointments are assigned in a specific order, with priority given to degree seeking, credit-earning students.

Within the Emeritus student population, Appointments are assigned using an Alpha-Rotation system. For questions about the system, call (949) 582-4555 x 0

New and/or Returning students are assigned Appointments once they submit an Emeritus Application to the Admissions & Records Office.
