Good Luck on Finals

-- and --

There's Bubble Wrap in the Honors Office

Honors Courses still open for Summer 2015

COUN 1: Ticket# 12410
Academic Planning
June 29 - August 7
TTh 9:00AM - 10:55

ENG 1AH: Ticket# 12375
Principles of Composition I Honors
June 15 - August 7
MTWTh 4:00PM - 5:50

LIB 2: Ticket# 80005
Advanced Information Competency Skills: Online Searching
MEETS ONLINE ONLY

Note to Sophomores re: using Summer Honors classes to replace ones in Fall or Spring of the following year:
Completing LIB 2 or ENG 1AH in Summer is an acceptable justification for not taking a Fall or Spring Honors class in the following year if you are making good progress toward
completing the program and can be expected to complete it before transfer. This may be something to consider if you are expecting a rough or high-load semester ahead. (Talk to your Honors counselor when making schedule changes.)

**Note to New Freshmen re: LIB 2:**
LIB 2 is a great first step to tossing that Google crutch away (we’re not even mentioning Wikipedia) and doing research on the highest college level.

Because this course is online only, having no face-to-face component, it is possible for high school students to take the course even though they still have high school class obligations until mid-June.

It is not self-paced, however. There is a schedule to follow.

(Are online courses right for your resources and personality? [Find out here.](#))

---

**WE'RE WELCOMING LOTS OF NEW STUDENTS TO THE HONORS PROGRAM AND TO THE MONDAY FYI**

**To our new students:**

Welcome (and congratulations)!

Over the next several weeks, one part of the Monday FYI will be dedicated to helping you learn your way around college in general and Saddleback College in particular.

**First, the building we call home:**
the Learning Resource Center (LRC). The many math tutors on the second floor of this building have never apparently gone downstairs.
If you are confused while looking for your classroom on the first floor of this building, take that as an indication that you have a logical mind. No one knows what space alien assigned these numbers:

Second, Saddleback College is on a hill, so:

- Never assume that the floor on which you enter a building is either the “first” floor or even the “main” floor. It might even be the third floor.
- Never assume that an elevator will go to all the floors of a building.
- Remember that “Upper Campus” is really **upper** campus. Give yourself a enough time to get from Parking Lot 1 to class. Also, the first week of campus is not the best time to show off your cool but uncomfortable shoes.
