Students may apply for admission to the Medical Laboratory Technology program once they can submit documentation verifying completion of all program prerequisites. Admission to the Medical Laboratory Technology program occurs once a year during the summer and students are admitted on the basis of the completion/verification of admission criteria and the completed application.

Applications are accepted on a continuous basis for each fall class with a first review of application occurring July 1st to July 31st for each fall admission.

A CA Certified Phlebotomy Technician License (CPT 1 or 2) is a program requirement. It is highly recommended that it be completed prior to MLT program admission but may be completed during the first program year. Phlebotomy is offered to MLT students in the summer session but may be completed throughout the year (Fall or Spring Semester) but just as a regular student (no priority placement).

Program Applications and unofficial transcripts must be hand delivered to the Health Sciences Division Office. Official transcripts must be received by Saddleback College Admissions and Records before you can register for MLT classes.

All communication will be through the email address given on the application, no correspondence will be sent through the US mail.

Applications can be delivered by the applicant or applicant’s representative at:

28000 Marguerite Parkway  
Health Sciences Building  
Room 238  
Mission Viejo, CA 92692  
949/582-4701
