Saddleback College Progress Report Accepted by Accrediting Commission

Mission Viejo, CA – The Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges (WASC) has responded to Saddleback College’s accreditation progress report, which was submitted to the Commission in October, 2008. As required by the Commission, Saddleback College’s progress report evaluated and responded to three recommendations made by the Commission following its campus visit in November, 2007. These recommendations included:

1. The college will develop and implement student learning outcomes across the college;
2. The Board of Trustees will cease its involvement in college and district operations and delegate all non-policy issues, including policy implementation, at the district level to the chancellor and at the college level to the president; and
3. Representatives of all formally recognized constituent groups will come together and take measures to reduce the hostility, cynicism, despair, and fear that continue to plague the college.

The Commission’s response to Saddleback College’s progress report
