

Setting up your iPhone

Navigate to 'Accounts & Passwords' in your iPhone's 'Settings' and tap 'Add Account'.

In the 'Add Account' screen select 'Exchange'.

Enter your Saddleback email address on the **Email** line (e.g. jsmith@saddleback.edu) and add a description to differentiate your email from your personal email. Then tap **'Next'**.

A screenshot of an email configuration screen. At the top, there are three buttons: "Cancel" on the left, "Exchange" in the center, and "Next" on the right. Below the buttons is a light gray header bar. Underneath, there are two input fields. The first is labeled "Email" and contains the text "[username]@saddleback.edu". The second is labeled "Description" and contains the text "Saddleback". Below the description field is another light gray bar.

Next it will ask you for your password. Enter your Password (the same password that is used to log into MySite, Workday, and campus computers) and tap **'Next'**.

A screenshot of an email configuration screen. At the top, there are two buttons: "Cancel" on the left and "Next" on the right. Below the buttons is a light gray header bar. Underneath, there are three input fields. The first is labeled "Email" and contains the text "[username]@saddleback.edu". The second is labeled "Password" and contains ten black dots. The third is labeled "Description" and contains the text "Saddleback". Below the description field is another light gray bar.

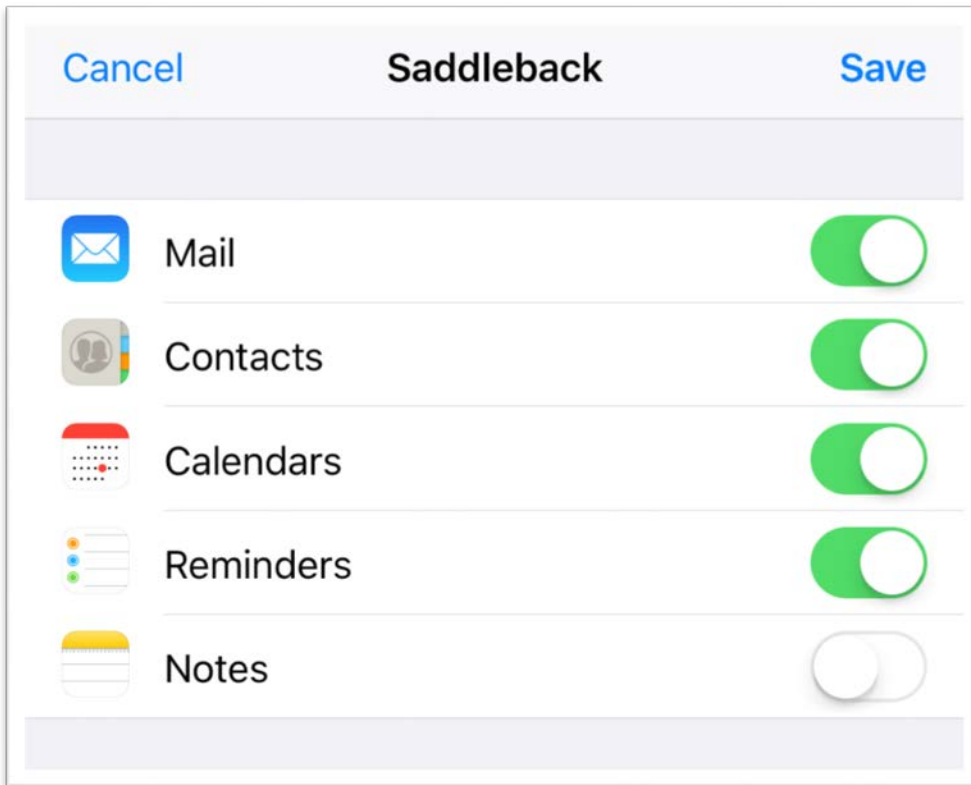

Next it will ask you for server information. Enter the **Server**, **Domain**, and **Username** like described below.

Cancel	Next
Email	[username]@saddleback.edu
Server	exchange.socccd.edu
Domain	saddleback
Username	[username]
Password	●●●●●●●●
Description	Saddleback

Example: **Server** exchange.socccd.edu
 Domain saddleback
 Username jsmith
 Password [your password]
 Description Saddleback

After information is inputted tap 'Next'.

Last choose what you would like to sync on your phone then tap **'Save'**

Your Saddleback email has now been setup on your iPhone.
